LISTENING NOTES (INTERCONNECTS)

THE ESI 2 INTERCONNECT (LOWEST PRICED)

The ESI 2 Audio Interconnect is very coherent and neutral sounding. The mid-range and vocals are natural and extended, with smooth upper high-frequencies. A perfect blend of audio qualities for entry-level or mid-priced audio components.

THE ESI 1 INTERCONNECT

The ESI 1 Audio Interconnect is an open and revealing, yet tonally neutral Interconnect. You can expect to hear tight bass, combined with natural mid-range and high frequencies. Fine details are revealed without harshness. The ESI 1 combines a unique blend of audio qualities that is coherent, detailed, dynamic and clear, with slightly smooth extreme high-frequencies.

THE E3 EXTREME 2 INTERCONNECT

The E3 Extreme 2 Audio Interconnect delivers a detailed and revealing sound throughout the audio spectrum. It has high-resolution and fine dynamic contrasts combined with uniform and coherent vocal and mid-range frequencies. The high-frequencies are natural, coherent and extended, without being shrill or bright sounding. You will hear detailed, focused imaging within a spacious, multi-dimensional soundstage.

THE E3 EXTREME 1 INTERCONNECT

The E3 Extreme 1 Audio Interconnect provides high-end performance. It is detailed, natural and transparent. The sonic signature is authentic and lifelike with vivid and natural, clear high-frequencies. You will hear fine high-frequency details and ambient cues, with precise imaging within a fully developed multi-dimensional soundstage.

LISTENING NOTES (SPEAKER CABLES)

THE ES-2 SPEAKER CABLE

The ES-2 Speaker Cable is neutral and smooth. At a budget price it provides a natural and musical sound with warm vocals and a coherent mid-range. The high-frequencies are natural, combined with a smooth tonal balance in the upper high-frequencies.

THE ES-1 SPEAKER CABLE

The ES-1 Speaker Cable provides a musical, detailed sound with a natural and revealing mid-range. Clean, fast transient detail, with plenty of bass punch. The high-frequencies are detailed and extended.

THE ERS-1 REFERENCE SPEAKER CABLE

The ERS-1 Speaker Cable is detailed and open, with a powerful, fast articulate bass. Overall the sound has excellent dynamic contrasts and detailed imaging, combined with a well developed soundstage.

THE E3 EXTREME 2 SPEAKER CABLE

The E3 Extreme 2 Speaker Cable presents vivid and articulate sound. The bass and upper-bass frequencies are fast and clear, with very natural and coherent vocals and extended mid-range frequencies. From the mid-range through to the high-frequencies, you will hear excellent definition combined with very palpable images and open, airy high frequencies.

THE E3 EXTREME 1 SPEAKER CABLE

The E3 Extreme 1 is a true reference speaker cable. It delivers deep and articulate bass frequencies combined with fast, clear and open mid-range frequencies. The mid-range vocals are truly live and palpable. In addition, you will hear extended high-frequencies, with lots of air and fine ambient information. Often described as open and revealing, you will hear great definition, image focus, and natural and lifelike images within a truly spacious soundstage.
